

**The Long Island Divers
Association,
Life Support Technologies Inc., &
Nassau University Medical Center
proudly present,**

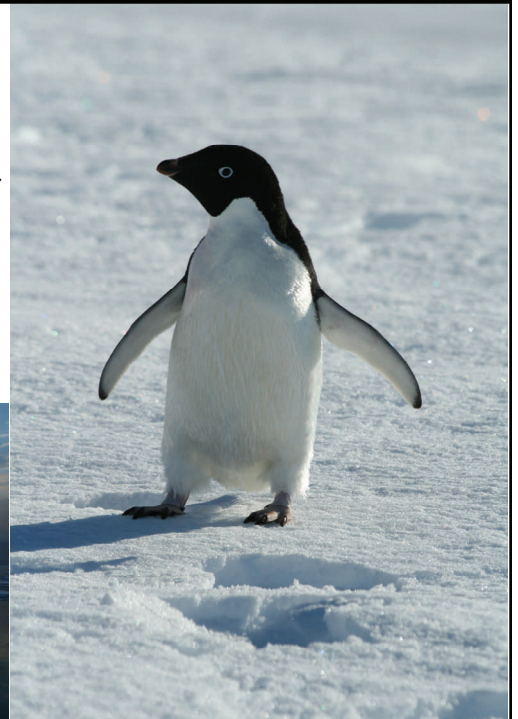

Marine Biologist **Marianne McNamara**
Back from the planet's most pristine wilderness, presents,
"Antarctica: My Experiences at the Bottom of the World"

**Tuesday
July 22, 2008
8:00PM
at the NUMC
Amphitheater**

Directions: Wantagh Parkway to Hempstead Turnpike West or Meadowbrook Parkway to Hempstead Turnpike East. Nassau University Medical Center is halfway between the Wantagh and Meadowbrook Parkways, on the North side of Hempstead Turnpike. Go to the main entrance and ask for the Amphitheater.

By now, Marianne is no stranger to any of us. She led the first of what we hope will be many hugely successful Marine Identification dives, she presented our May seminar "*Long Island's Amazing Local Critters*" to a packed house, and she is a LIDA member and a local diver. Join us on July 22nd as we bring Marianne back for another night of enlightenment, entertainment, and stunning imagery from one of the most remote parts of our planet. Marianne will describe her eight week "cruise" aboard an icebreaker performing research in a frozen wonderland. She will describe what it's like to embark on such an undertaking, and the process one goes through to get to so remote a location. Of course, she will be showing us her amazing photographs of the area, and the many wonderful animals they encountered along the way. Join us for what promises to be a night not to be missed!

FREE to Long Island Divers Association members, \$5.00 for all others.

Space is Limited. Reserve now, while spots are available.

RSVP Required: Please email Adam Altman at diverex@optonline.net

The Long Island Divers Association is a 501(c)(3) not-for-profit corporation.
